

BRB Silicone Emulsions

Product Card

Standard and Technical Silicone Emulsions as Mould Release and Lubricating Agent

Product Name

	Product Description	Components
BRB Sempure 35 (LC)	A general-purpose non-ionic aqueous emulsion containing 35% of a medium viscosity silicone oil. Product is SVHC-compliant.	Medium viscosity silicone oil, non-ionic surfactants, preservatives.
BRB Sempure 60 (LC)	A general-purpose non-ionic aqueous emulsion containing 60% of a medium viscosity silicone oil. Product is SVHC-compliant.	Medium viscosity silicone oil, non-ionic surfactants, preservatives.
BRB Sempure HV 6500 (LC)	A non-ionic aqueous emulsion containing 60% silicone oil blend of medium viscosity and high viscosity. Product is SVHC-compliant.	Blend of medium viscosity and high viscosity silicone oil, non-ionic surfactants, preservatives.
BRB Sempure 66 (LC)	A non-ionic aqueous emulsion containing 60% of low viscous silicone oil. Product is SVHC-compliant.	Low viscosity silicone oil, non-ionic surfactants, preservatives.
BRB Sempure 1997	A non-ionic 55% active aqueous emulsion of a high molecular weight silicone oil.	High viscosity silicone oil, non-ionic surfactants, preservatives.
BRB Waxil AST ECO	A 28% active non-ionic well-balanced aqueous emulsion of silicone oils combined with polyethylene waxes.	Medium viscosity silicone oil, polyethylene wax, non-ionic surfactants, preservatives.
BRB Sempure 1218	A 60% anionic EMPOL emulsion of a high molecular weight polydimethylsiloxane.	High molecular weight silicone oil (polydimethylsiloxane), anionic surfactant, preservatives.
BRB Sempure 1464-50E	An aqueous emulsion of alkylaryl polysiloxane used as paintable mould release.	Alkylaryl polysiloxane, non-ionic surfactant, preservatives.

Food Contact Silicone Emulsions

	Product Description	Components
BRB Sempure 357	A food contact non-ionic aqueous emulsion containing 35% food grade silicone oil.	Medium viscosity food grade silicone oil, non-ionic emulsifiers, food grade preservative.
BRB Sempure 607	A food contact non-ionic aqueous emulsion containing 60% food grade silicone oil.	Medium viscosity food grade silicone oil, non-ionic emulsifiers, food grade preservative.

BRB Silicone Emulsions

Product Card

Product Name

Home & Car Care Silicone and Aminosilicone Emulsions

	Product Description	Components
BRB Sempure 35 (LC)	A general-purpose non-ionic aqueous emulsion containing 35% of a medium viscosity silicone oil. Product is SVHC-compliant.	Medium viscosity silicone oil, non-ionic surfactants, preservatives.
BRB Sempure 60 (LC)	A general-purpose non-ionic aqueous emulsion containing 60% of a medium viscosity silicone oil. Product is SVHC-compliant.	Medium viscosity silicone oil, non-ionic surfactants, preservatives.
BRB Sempure HV 6500 (LC)	A non-ionic aqueous emulsion containing 60% silicone oil blend of medium viscosity and high viscosity. Product is SVHC-compliant.	Blend of medium viscosity and high viscosity silicone oil, non-ionic surfactants, preservatives.
BRB Sempure 66 (LC)	A non-ionic aqueous emulsion containing 60% of low viscous silicone oil. Product is SVHC-compliant.	Low viscosity silicone oil, non-ionic surfactants, preservatives.
BRB Sempure 1997	A non-ionic 55% active aqueous emulsion of a high molecular weight silicone oil.	High viscosity silicone oil, non-ionic surfactants, preservatives.
BRB Sempure 135	A 35% micro-emulsion specifically developed for use in transparent, aqueous, hard surface cleaning products.	Amino silicone oil, non-ionic surfactants, glycerine, preservative.
BRB Sempure 330	A 30% active emulsion of a high molecular weight silicone urethane resin. It is used to improve water repellency, dirt resistance, gloss and softness in various formulations of hard surface and leather dressings.	Silicone urethane resin, non-ionic surfactants, preservative.
BRB Sempure 422	A clear, non-ionic microemulsion of phenyl functional silicone and a quaternary ammonium functional silicone. It allows formulation of transparent products with unique properties.	Alkylaryl polysiloxane, non-ionic surfactant, preservatives.
BRB Sempure 3733	A 40% cationic emulsion of an amino silicone fluid.	Amino silicone oil, cationic surfactant, preservative.
BRB Sempure 230	A 30% micro-emulsion of a quaternary silicone polymer specifically developed for use in hard surface cleaning products.	Quaternary silicone oil, non-ionic surfactants, glycerine, preservative.
BRB Sempure 270	A 70% micro-emulsion of a quaternary silicone polymer specifically developed for use in fabric care softeners.	Quaternary silicone oil, non-ionic surfactants, PEG 400, butyl glucol, preservative.
